

Case Project

~~~~~  
~~~~~  
Student Name: Worlanyo Akpatsa
Student ID: 101590287

Term: 2025 January

~~~~~  
~~~~~  
Task1: Install Windows 11 on VmWare Workstation and Name it "Yourname-StudentID"

Task2: Create a provisioning package that creates a local admin account called "yourname-Admin" and set the password to P@ssw0rd. (create and add the package)

Task3: Configure Local policies to enforce UAC dialog box and DIM screen

Task4: Pin Microsoft News app to start menu and export the Taskbar layout.

Task5: Use PowerShell to set Static IP address "192.168.168.101/24"

Task6: Create a storage space with 2-way mirror (size is not important)

Task7: On the storage space created on the previous task, create a new folder called "File Share" and change the permissions as below:

- a. Authenticated users -> read only
- b. Administrators -> Full Control

Task8: Share the folder created above with permissions as below:

- a. Everyone -> Read
- b. Administrators -> Full Control

Task9: Install Microsoft "Whiteboard" from Microsoft Store

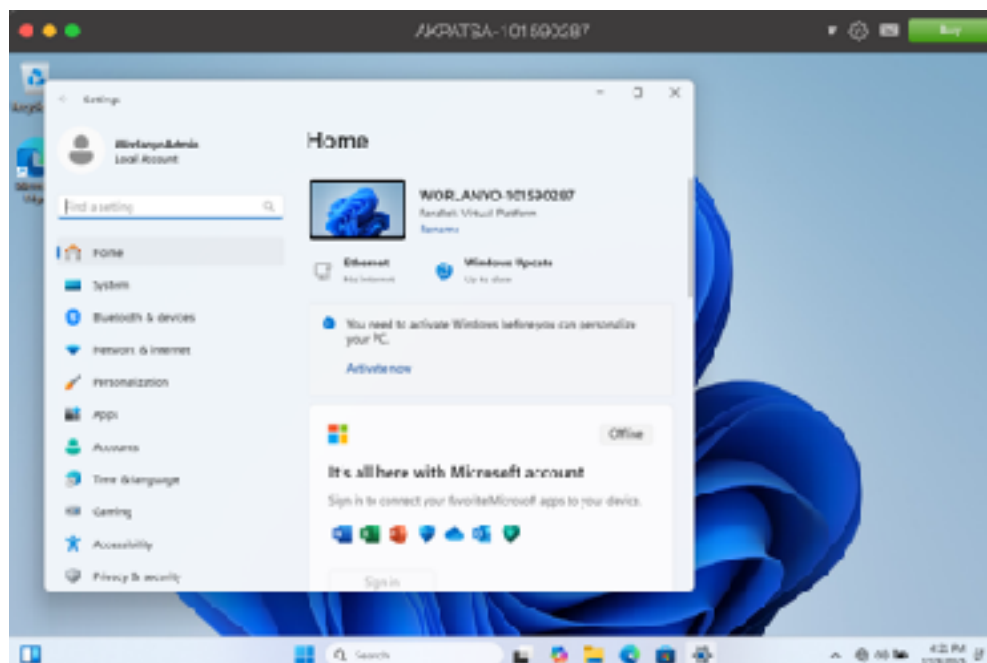

Task10: Configure file history on your storage space to keep the data for the past 30 days.

NOTE: Please I use Parallel Desktop for Mac and was taking all my screenshots in full screen (command+shift+3) so my VN name which is at the top when it is minimized was not showing for most of my screenshots. I did not see the fact that it was compulsory to show this until I was about to submit because this is exactly how I did it for the labs too. However, I plan to fix
